

OPHTHALMOLOGY ABBREVIATIONS

By Prapatsorn Patikulsila, M.D.

AC	Anterior chamber	CRRR	Corneal rust ring remover
AC/A	Accommodative convergence/accommodation ratio	CRVO	Central retinal vein occlusion
AES	Anterior eye segment	CSC, CSR	Central serous (chorio) retinopathy
AET	Alternate esotropia	CSME	Clinically significant macular edema
AHC	Acute hemorrhagic conjunctivitis	DCR	Dacryocystorhinostomy
AK	Astigmatic keratotomy	DHD	Dissociated horizontal deviation
AKC	Allergic keratoconjunctivitis	DR	Diabetic retinopathy
ALK	Automated lamellar keratoplasty	DRS	Diabetic retinopathy study
ALT	Argon laser trabeculoplasty	DVD	Dissociated vertical deviation
AMT	Amniotic membrane transplantation	DDVD	Double dissociated vertical deviation
App	Applanation tonometry	E	Esophoria
AR syndrome	Axenveld-Reiger syndrome	ECCE	Extracapsular cataract extraction
ARMD, AMD	Age-related macular degeneration	ECP	Endocyclophotocoagulation
ARN	Acute retinal necrosis	EKC	Epidemic keratoconjunctivitis
ASC	Anterior subcapsular cataract	EL	Endolaser
AXT	Alternate exotropia	EMM	Epimacular membrane
BDR	Background diabetic retinopathy	EPRP	Endopapillary photocoagulation
BLR	Bilateral lateral rectus	ERM	Epi-retinal membrane
BMR	Bilateral medial rectus	ET	Esotropia
BRAO	Branch retinal artery occlusion	ETDRS	Early treatment diabetic retinopathy study
BRVO	Branch retinal vein occlusion	FA	Fluorescein angiography
BUT	(tear) Break up time	FAX	Fluid-air exchange
CACG	Chronic angle closure glaucoma	FFA	Fundus fluorescein angiography
c C	with correction	FGX	Fluid-gas exchange
CCF	Carotid cavernous fistula	FK	Filamentous keratitis
CCS	Carotid cavernous shunt	FP	Fibrous proliferation
CjDCR	Conjunctivodacryocystorhinostomy	F +ve	positive fluorescein staining
CDCR	Canaliculodacryocystorhinostomy	HSK	Herpes simplex keratitis
C ₃ F ₈	Perfluoropropane gas	HSV	Herpes simplex virus
CL	Contact lens	HZO	Herpes zoster ophthalmicus
COAG	Chronic open angle glaucoma	ICCE	Intracapsular cataract extraction
CRAO	Central retinal artery occlusion	ICE syndrome	Iridocorneal endothelial syndrome
		ILM	Internal limiting membrane
		IO	Inferior oblique

IOL	Intraocular lens	OD	Oculus dexter (right eye)
IPCV	Idiopathic polypoidal choroidal vasculopathy	OS	Oculus sinister (left eye)
IR	Inferior rectus	OT	Ocular tension
IRMA	Intraretinal microvascular abnormality	OU	Oculus uterque (both eyes)
IVTA	Intravitreal injection of triamcinolone acetate	PAG	Perennial allergic conjunctivitis
KCS	Keratoconjunctivitis sicca	PACG	Primary angle closure glaucoma
KM	Keratomileusis	PAS	Peripheral anterior synechiae
KPs	Keratic precipitates	PC	Posterior chamber
LASEK	Laser .	PCF	Pharyngoconjunctival fever
LASIK	Laser in situ keratomileusis	PCO	Posterior capsule opacity
LK	Lamellar keratoplasty	PCR	Polymerase chain reaction
LDVD	Left dissociated vertical deviation	PDR	Proliferative diabetic retinopathy
LHT	Left hypertropia	PDT	Photodynamic herapy
LPI	laser peripheral iridotomy	PE	Phacoemulsification
LR	Lateral rectus	PED	Pigment epithelial detachment
MA	Microaneurysm	PED	Persistent epithelial defect
MB	Muscle balance	PEE	Punctate epithelial erosion
MH	Macular hole	PFCL	Perfluorocarbon liquid
MMC	Mitomycin-C	PFV	Persistent fetal vasculature
MP	Membrane peeling	PH	Pinhole
MR	Medial rectus	PHPV	Persistent hyperplastic of primary vitreous
MR	Manifest refraction	PI	Peripheral iridotomy
MS	Multiple sclerosis	PK,PKP	Penetrating keratoplasty
NPDR	Non-proliferative diabetic retinopathy	PLCO	Posterior lens capsule opacity
NS	Nuclear sclerosis	POAG	Primary open angle glaucoma
NV	Neovascularization	PORN	Progressive outer retinal necrosis
NVD	Neovascularization at disc	PPL	Pars plana lensectomy
NVE	Neovascularization elsewhere	PPMD	Posterior polymorphous dystrophy
NVG	Neovascular glaucoma	PPV	Pars palna vitrectomy
NVI	Neovascularization of iris (rubeosis iridis)	PR	Pneumatic retinopexy
OA	Overaction (eg. muscle)	PRK	Photorefractive keratectomy
		PRP	Panretinal photocoagulation
		PS	Posterior synechiae
		PSC	Posterior subcapsular cataract
		PTK	Phototherapeutic keratectomy
		PVD	Posterior vitreous detachment
		PVR	Proliferative vitreoretinopathy
		PXS	Psedoexfoliation syndrome

PXG	Pseudoexfoliation glaucoma	VKC	Vernal keratoconjunctivitis
		VKH	Vogt-Koyanagi-Harada syndrome
RAPD	Relative afferent pupillary defect		
RD	Retinal detachment	X	Exophoria
RDVD	Right dissociated vertical deviation	XT	Exotropia
RHT	Right hypertropia	X(T)	Intermittent exotropia
RK	Radial keratotomy		
RLF	Retrolental fibroplasia	คำที่ห้ามย่อ	
ROP	Retinopathy of prematurity	-ชื่อยาทุกชนิด ป้องกัน medication error	
R/R	Resection and recession	(PF, CPM, SDX, HTO, D2, etc)	
RRD	Rhegmatogenous retinal detachment	-MC	Mature cataract
		-PTR	Pterygium
RP	Retinitis pigmentosa		
		PP 27 08 2551	
SAC	Seasonal allergic conjunctivitis		
SBP	Scleral buckling procedure		
s C	without correction		
SC	Senile cataract		
SF	Scleral fixation		
SF ₆	Sulfur hexafluoride (gas)		
SLE	Slit lamp examination		
SLK	Superior limbic ketatoconjunctivitis		
SMD	Senile macular degeneration		
SO	Silicone oil		
SO	Superior oblique		
SO	Sympathetic ophthalmia		
SOI	Silicone oil injection		
SRF	Subretinal fluid		
TASS	Toxic anterior segment syndrome		
Tn	Tension (ocular)		
TRD	Tractional retinal detachment		
TSCPC	Transscleral cyclophotocoagulation		
Tx	Treatment, Trabeculectomy		
UA	Underaction (eg. muscle)		
VA	Visual acuity		
VF	Visual field		
VH	Vitreous hemorrhage
