

# Peptamen® Has the Proof

## The proof isn't just in our studies. It's in your patients.

In today's healthcare environment, no one can afford a formula that isn't backed by clinical experience. In multiple studies, patients receiving Peptamen® the elemental diet that uses for oral supplement and tube feeding

### showed an improved nutritional status with

• 100% hydrolyzed whey contribute to better protein repletion • 70% MCT and low osmolality contribute to less diarrhea • better glutathione repletion ➔ reduce oxidative stress

### showed a superior proof

• superior weight gain • earlier oral feeding ➔ shorter length of hospital stay ➔ cost reduction

### Peptamen® provides an effective nutritional support in patients with

• Malabsorption from Hypoalbuminemia • Chronic diarrhea • Opportunistic infections involving the small or large intestine • Malabsorption from chemotherapy or radiation enteritis

### Peptamen® is ideal for

✓ Acute pancreatitis patients ✓ Chronic pancreatitis patients ✓ Surgical patients ✓ Critically ill patients ✓ Trauma patients ✓ ICU patients ✓ Short bowel syndrome patients
